

Behringer  
**Telescopic Base Stand**  
**STCHNTBS**

The Telescopic Adjusting Round Floor Mount Stand allows the housing's rod elevation to be adjusted up to 2" from the base plate's surface. The rod attached to the housing slides inside the base plate's elevation adjustment tube. This fine tune adjustment allows the installer to quickly change the support's elevation to match the tube's distance from the floor. The base plate can be supplied with or without anchor bolt holes. Anchor bolts not supplied by Behringer.

**Base** RSP1 & RSP2 - 0.25" to 2.00" OD tube & pipe sizes

**Plate** RSP3 & RSP4 - 2.05" to 4.50" OD tube & pipe sizes
